PROFESSIONAL EXPERIENCE

Software Developer

Cooperative Bank of Oromia - *Addis Ababa, Ethiopia*
Jun 2022 – Present

- Led development of enterprise-grade internal platforms supporting cooperative institutions, agreements, and approval workflows used by multiple business units.
- Designed and implemented role-based access control, bulk approval/rejection flows, and document management with in-app PDF previews, significantly improving operational efficiency.
- Optimized frontend rendering and backend queries, resulting in measurable performance improvements across high-traffic internal dashboards.
- Developed and maintained scalable applications using **React.js, Next.js, Spring Boot, and MongoDB**, ensuring maintainability and long-term extensibility.
- Collaborated closely with product owners, designers, and QA teams in Agile environments to deliver web and mobile-ready solutions.

Freelance Full-Stack Developer (Top Rated)

Upwork & Private Clients - Remote
2023 – Present

- Delivered **15+ production-grade applications** for startups and enterprises with a **100% Job Success Score** and consistent 5-star client feedback.
- Built an airline booking system featuring real-time seat selection, Stripe-based payments, live flight updates, and a custom admin dashboard.
- Customized and extended **Kill Bill (Flexbill)** open-source billing platform to support complex SaaS subscription and recurring payment workflows.
- Enhanced and deployed **Makerkit SaaS boilerplate**, accelerating client product launches and reducing development time.
- Trusted by repeat clients for clear communication, performance-focused development, and reliable end-to-end delivery.
